Dear Linda: In a lifetime we may have an opportunity to meet with four or five truly professionals in their occupation. Let me tell you about one of your employees who is in this category. More than three years ago I received a telephone call from Mike Meditz asking if my house would be for sale. The answer was where am I going to go, call me back in about 6 months. This scenario continued for almost a year and a half. Mr. Meditz with great patience and never pushy finally was successful. My wife and I decided to move as we had an opportunity to purchase a home in the GREENS. I am positive you are aware of the "jerk around" the purchasers in the GREENS received from the sales staff. For exactly 22 months Mike in his calm, courteous way took care of all our many needs and desires. The bottom line, this was not an easy sale and we needed a knowledgeable, experienced real estate person and we thank God for sending us Mike. On August 3, Mike supervised all the arrangements and on that day we sold our house in the morning, purchase a new home in the afternoon, paid your employees commission and left most importunately as FRIENDS.

I want to congratulate you for having such an outstanding employee on your staff.

Eddie Coyne, 10 Spector Lane, Plainview, NY 11803
